

# Make A Wish Tower

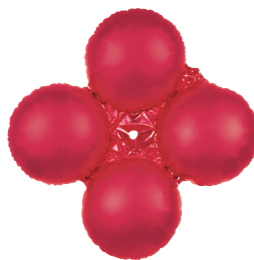

## ingredients needed:

**44436-26**  
 1 ea-36" Foil Balloon

**4443518**  
 4 ea-18" Foil Balloons

**13CL36**  
 2 ea-Red MagicArch™ Balloons

**40213**  
 Red Foil Circles

**D31613**  
 Red Holographic Ribbon

**94291**  
 2 ea-Adhesive Tabs

## equipment:

**831**  
 Mini Cool Aire®  
 Dual Pro™ Inflator

**BR74HG**  
 Dual Foil + Latex  
 Regulator

## directions:

Air-fill one MagicArch™ balloon and two of the 18" balloons with the Mini Cool Aire® Dual Pro™ Inflator. Use the lower setting on the machine to ensure you do not damage the self sealing valve. Attach a piece of ribbon to the stems of the air-filled 18" foil balloons. Insert the ribbon through the hole in the MagicArch™ and attach to the weight. Place two adhesive tabs facing each other on the top center of the two air-filled 18" foil balloon. Tie each air-filled balloon into the adhesive tabs.

Helium inflate the Make a Wish foil shaped balloon. Tie the stem with a piece of the ribbon. Helium inflate the MagicArch™ balloon and slip the ribbon through the large hole in the MagicArch™. Helium inflate two more of the 18" foil balloons and tie with ribbon. Attach adhesive strips to the center top portion of each 18" foil balloon. Tie the column together using the ribbon.

Gather the foil circle together with ribbon. Cover the junctions with the foil circles.
